

zpd+a was retained by Health Care Service Corporation in the spring of 2013 to provide architectural, engineering, and interior design services for a 45,000 sq. ft., two-floor tenant interior build-out. This facility included general offices, conference and training facilities, an employee lounge/multi-purpose area, and a 7,000 sq. ft. executive office suite and board room.

A major planning goal was to take advantage of the surrounding view while also bringing natural day lighting deep into the space. This corporate facility also introduced some of the latest advances in audio/visual communications, with an emphasis on video conferencing facilities and communications monitors strategically located throughout the facility.

**Project:**  
BlueCross BlueShield  
of Oklahoma  
Caliber Center

**Size:**  
45,000 sq. ft.

**Value:**  
\$3 million

**Status:**  
Completed Fall 2013

**Type of Services:**  
Architecture  
Interiors
